About Me

I am a software engineering and data enthusiast who truly believes that well-crafted technology has the power to transform realities. With over 15 years of experience, my career has been a continuous journey of learning and the pursuit of technical excellence, driven by the principles of lifelong learning. I am an active member of a community of practice where we share a passion for new technologies, automation, and data management best practices.

My ultimate life goal is to achieve full financial independence while building a sustainable remote career, allowing me to balance my passion for creating robust solutions with personal freedom. I am looking to work as a developer in a company that follows top-tier coding practices—such as documentation, testing, and a solid DevOps pipeline—and offers big challenges, like implementing new technologies or scaling applications.

What I offer:

- **New solutions:** a continuous mindset of how processes can be improved.
- **Positive vibes:** a strong love for teamwork and a healthy working environment.
- **Commitment:** total dedication to achieving everything I commit to.
- **Agile knowledge:** working with agile methodologies and reviewing results.
- **Data solutions and automations:** clear communication of the benefits and drawbacks of each choice.

Languages

Spanish: Native.

English: B2 (upper-intermediate).

Experience

Full Stack Developer — Python & React Specialist Jan 2021 – Present

GUX (Great User Experience) — Chilean startup

- End-to-end development of an e-commerce store with React.js and Python (FastAPI / Django REST Framework), with serverless architecture and deployment on AWS.
- Design of robust REST APIs documented with Swagger/OpenAPI, integrating microservices and optimizing cloud queries.
- Migration of legacy systems to a modern cloud architecture (React, Python, AWS CDK, containers) with CI/CD pipelines and testing best practices.

Skills: JavaScript | TypeScript | React | Redux | Tailwind | Styled Components | SASS | Chakra UI | React Testing Library | Vite | CSS | HTML | Bootstrap | Material | jQuery | PHP | Laravel | Django | FastAPI | AWS | Oracle | PostgreSQL | SQL Server | MySQL | MariaDB | SQLAlchemy | Django ORM | Docker

Senior Software Developer

Dec 2018 – Dec 2020

Universidad Los Angeles de Chimbote

- Development of modules and interfaces with Python (Django REST Framework) and React.js for academic management and institutional process automation.
- Implementation of asynchronous data processing with microservices deployed on AWS, applying CI/CD and architecture best practices.

Skills: JavaScript | TypeScript | React | Redux | Tailwind | Styled Components | SASS | Chakra UI | React Testing Library | Vite | CSS | HTML | Bootstrap | Material | jQuery | PHP | Laravel | Django | FastAPI | AWS | Oracle | PostgreSQL | SQL Server | MySQL | MariaDB | SQLAlchemy | Django ORM | Docker

Systems Programmer Analyst

Nov 2012 – Nov 2018

Peruana de Combustible SAC — Lima (Full-time / Hybrid)

- Development of a production cost & budgeting system with Python APIs (Django REST Framework) for 5 plants, cutting costs by 18% and shortening the accounting close by 2 days through query optimization.
- New requirements, bug fixing and maintenance of web systems applying design patterns, incident tracking and development best practices.
- Development of a point-of-sale system with online payment gateway and e-invoicing, centralizing payments with AWS service integration and CI/CD deployment.

Skills: JavaScript | TypeScript | React | Redux | Tailwind | Styled Components | SASS | Chakra UI | React Testing Library | Vite | CSS | HTML | Bootstrap | Material | jQuery | PHP | Laravel | Django | FastAPI | AWS | Oracle | PostgreSQL | SQL Server | MySQL | MariaDB | SQLAlchemy | Django ORM | Docker

Education & Certifications

Systems & Computer Engineering (CIP 202610) — Graduated 2006 – 2010
Universidad Nacional del Santa.

Master's in IT Management — Graduated 2018 – 2020
Universidad Nacional del Santa.

Certifications

Scrum Developer Certified (SDC) — ScrumStudy | AWS Cloud Practitioner — Amazon Web Services.
